Interest charges of 1% per month or 12% per annum will be charged for any overdue payment.
- All concrete is prepared according to the specifications published by the CAN/CSA A23.1-19. Any alteration made to the concrete at the construction site upon the client's request, by the client and/or client's representative, (addition of water) will annul the manufacturer's guarantee of strength.
- The client must assume the cost of creating safe access to the construction site, must guide the concrete truck operator from public access, and must oversee the unloading. Any damage to public or private property remains entirely the client's responsibility.
- The client must assume all responsibility for ensuring that the appropriate methods are used to protect the quality of the concrete, as per CSA.
